

STE(A)Ming into History

What does a memory look like?

Mon 29 April 8.30am —3.30pm
Guildford Heritage Precinct

When Historical Inquiry meets Digital Literacy magical learning happens. Join us for an **Early Childhood (P-3 focus)** hands-on professional learning day using HASS skills and iSTEM capabilities. We will explore and create while investigating the significance of time, place and people connected to a significant local site. Participants are asked to BYOD iPad or Smart phone as you will be introduced to a range of Apps and digital games in preparation for a full afternoon of creating *your* digital resource, designed for *your* students in *your* classroom and beyond. The curriculum focus will be past and present family life and technology over time.

Numbers are strictly limited due to the hands-on nature of this workshop, so please register your interest as soon as possible. Registrations close Friday, 12 April. Further details, including the full program for the day, will be sent to registered participants prior to the event. Registration includes morning tea, lunch and workshop resources.

For more information or to register please visit the AISWA PL Calendar
